

# PRIME LINE

Feel the Difference

**TELESTEPS** 

No.1 in telescopic work tools

# MANY ADVANTAGES

## **SIMPLE**

We have always been convinced that the best ladder is both short and long. The telescopic ladder is easy to pull out to the desired length and securing it before use is just as quick. When the red locking catches have unfolded under each rung, this indicates that the ladder is ready for use and can handle loads of up to 150 kg.

## **FLEXIBLE**

With the telescopic function and the minimal turning radius, the ladders are perfect even in small spaces. The ladders can be adjusted to the optimal height to fit your needs precisely. In this way, a telescopic ladder is many ladders in a single unique ladder. In our assortment there are also smart accessories that make your work even easier.

## **QUALITY, SAFETY & DESIGN**

The Prime ladder is perfect for all sorts of professional work. The ladder is small and compact for storage and transportation. The triangular tube design makes the ladder strong and torsionally rigid and it is easy to push together. Rubber tops, angled and grooved steps also mean that you can feel safe at all times. We assemble the ladders by hand and test them individually before delivery. Our equipment is certified according to EN 131/SP/TÜV.

With Prime we took everything we know about designing qualitative ladders over the years and embarked on a new era. Prime - Our Most Powerful Product Yet!

## PRIME LINE 3,2 M

Art. no:	70232
No. of treads:	10
Tread width:	50 mm
Working height:	4,4 m
Length, extended:	3,2 m
Length, closed:	0,80 m
Width:	0,47 m
Weight:	11,0 kg

---

## PRIME LINE 3,8 M

Art. no:	70238
No. of treads:	12
Tread width:	50 mm
Working height:	5,0 m
Length, extended:	3,8 m
Length, closed:	0,87 m
Width:	0,47 m
Weight:	13,8 kg

---

## PRIME LINE 4,1 M

Art. no:	70241
No. of treads:	13
Tread width:	50 mm
Working height:	5,3 m
